Sinderella's Arabian Knights

Church Rushton Adult Panto Society have been putting the sin into **Sinderella** (and many other productions) since the early Noughties. Tonight, after an ecstatically-received revival of their most famous show, they celebrate ten years at the top with a grand VIP party. But behind the scenes friendships are strained, the coffers are empty, and any number of marriages are on the rocks. Moreover, the theatre ghost has been making her presence felt, the Fairy Godmother is being blackmailed, and Sinders has just discovered she's pregnant.
